EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 15, line 2, the words "not for using as a capacitor" are deleted.

2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-15, the prior art fails to teach an ESD protection circuit in which a capacitor of an RC module is formed by a thick native gate oxide of a transistor, in combination with the other limitations in the claims.

Applicant's arguments that there would be no motivation to replace a thick gate oxide of a transistor with a thick native gate oxide of a transistor to prevent leakage and that the motivation to use Shau (6,343,045) frustrates the motivation to use Anderson et al. (US 6,310,379) are convincing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ann T. Hoang whose telephone number is 571-272-2724. The examiner can normally be reached Mondays through Fridays, 8:00 a.m. to 5:00 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Sircus, can be reached at 571-272-2800 x36. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
